TECHNICAL OFFICE

Notice of Foreign Proposals Concerning Standards in Agriculture. As required of all signatories to the GATT Standards Code, the following notifications of foreign proposed standards-related rules have been provided for the information and comment of interested agencies and firms. The Technical Office invites inquiries from anyone who believes that any of the proposed regulations notified under this heading could cause a trade problem. From time to time we also receive information through our embassies in foreign countries, as is the case this week. Request for copies or questions can be referred to Carolyn Fillmore Wilson, USDA Technical Office, Building 1072 BARC - East, Beltsville, MD. 20705; or telephone (301) 344-2651. After reviewing a particular proposal, anyone interested in commenting on it should include the TBT Notification Number in their communication.

Japan - TBT Notification 86.22 The Japanese Ministry of Health and Welfare, Environmental Health Bureau, Food Sanitation Division, has proposed an amendment (product covered - mineral water) to the technical requirements for mineral water which would amend the specificatons and standards for composition and manufacture of natural mineral water, etc. The objective and rationale for the proposal is public health. Final date for comments on the proposal is March 20, 1986.

Japan - TBT Notification 86.23 The Japanese Ministry of Health and Welfare, Environmental Health Bureau, Food Sanitation Division and Food Chemistry Division has announced a proposal (product covered - food packaging) to amend the technical requirements for food processing equipment, food packaging and pacifiers made of rubber. The objective and rationale for the proposal is public health. Final date for comments on the proposal is March 20, 1986.

Federal Republic of Germany - TBT Notificaion 86.24 The Federal Ministry of the Interior has announced a proposal (product covered - washing agents) to amend the Act on Washing Agents. The proposal would include in the Act all agents intended or used for cleaning which agents may - after use - be discharged into public bodies of water. The objective and rationale for the proposal is environmental water pollution control. Final date for comments on the proposal is April 18, 1986.

Canada The Technical Office recently received supplementary information to the Canadian Guide for Food Manufacturers and Advertisers. The supplement covers the use of negative claims regarding the presence of ingredients or substances in food. The Guide has been revised to allow negative statements on condition they do not constitute a false or misleading statement.

Singapore We recently received Government of Singapore food regulations pertaining to food additives.

TECHNICAL OFFICE

Notice of Foreign Proposals Concerning Standards in Agriculture. As required of all signatories to the GATT Standards Code, the following notifications of foreign proposed standards-related rules have been provided for the information and comment of interested agencies and firms. The Technical Office invites inquiries from anyone who believes that any of the proposed regulations notified under this heading could cause a trade problem. From time to time we also receive information through our embassies in foreign countries, as is the case this week. Request for copies or questions can be referred to Carolyn Fillmore Wilson, USDA Technical Office, Building 1072 BARC - East, Beltsville, MD. 20705; or telephone (301) 344-2651. After reviewing a particular proposal, anyone interested in commenting on it should include the TBT Notification Number in their communication.

Canada - TBT Notification 86.28 The Canadian Department of National Health and Welfare has proposed an amendment (product covered - cured side bacon) to the Food and Drug Regulations. The proposed amendment will reduce the permitted maximum levels of use of potassium and/or sodium nitrite or a combination of both from 150 ppm to 120 ppm in cured side bacon. The objective and rationale for the proposal is health protection. Final date for comments on the proposal is August 8, 1986.

Canada - TBT Notification 86.36 The Canadian Department of National Health and Welfare has proposed an amendment (product covered - yeast food) to the Food and Drug Regulations which would revoke the use of urea as a permitted yeast food. The objective and rationale for the proposal is health protection. Final date for comments on the proposal is April 23, 1986.
